

## RESTAURANT RESERVATION \*

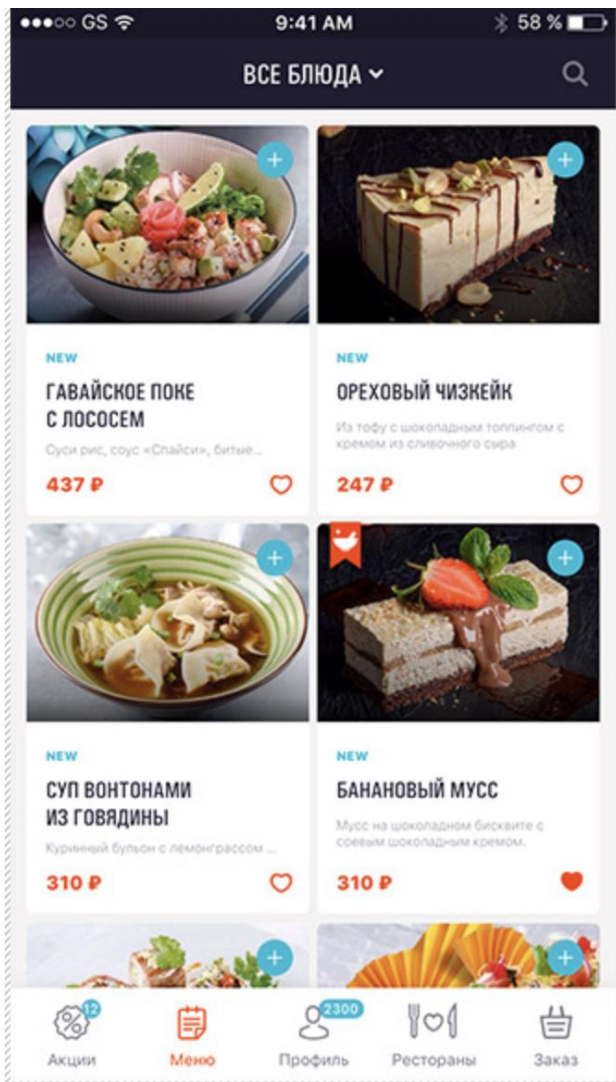

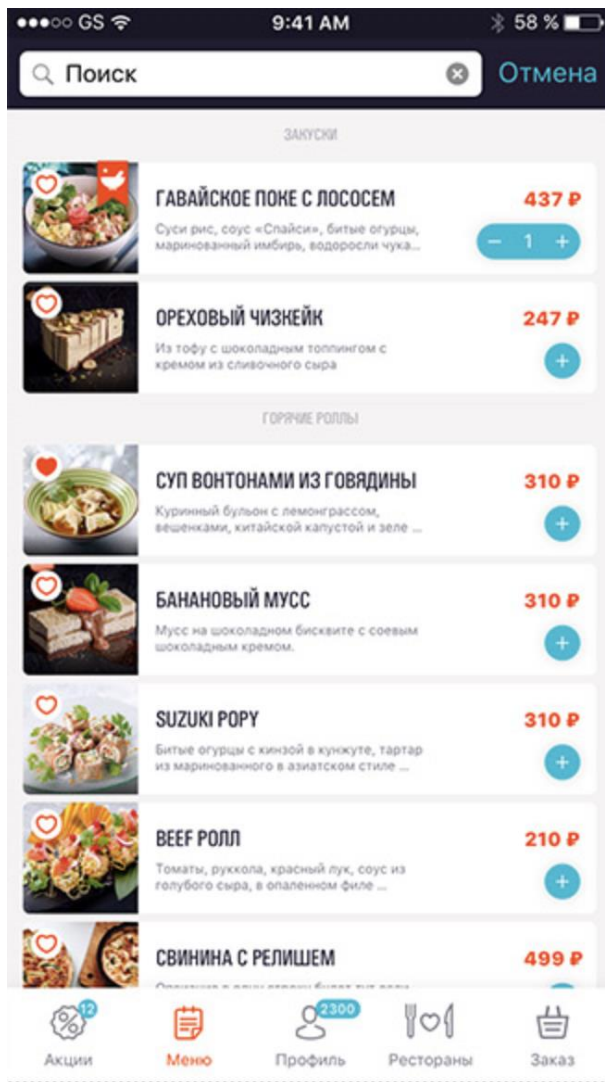

BEST MECHANISM FOR ATTRACTING AND KEEPING CLIENTS.

Customers who like your institution will make orders through your mobile app, not through the app aggregators, bringing additional profit

Menu, promotions, discounts, delivery areas and guest loyalty change instantly when you change the content in the admin panel. Orders, user profiles and statistics from the mobile application come directly to the database admin panel.

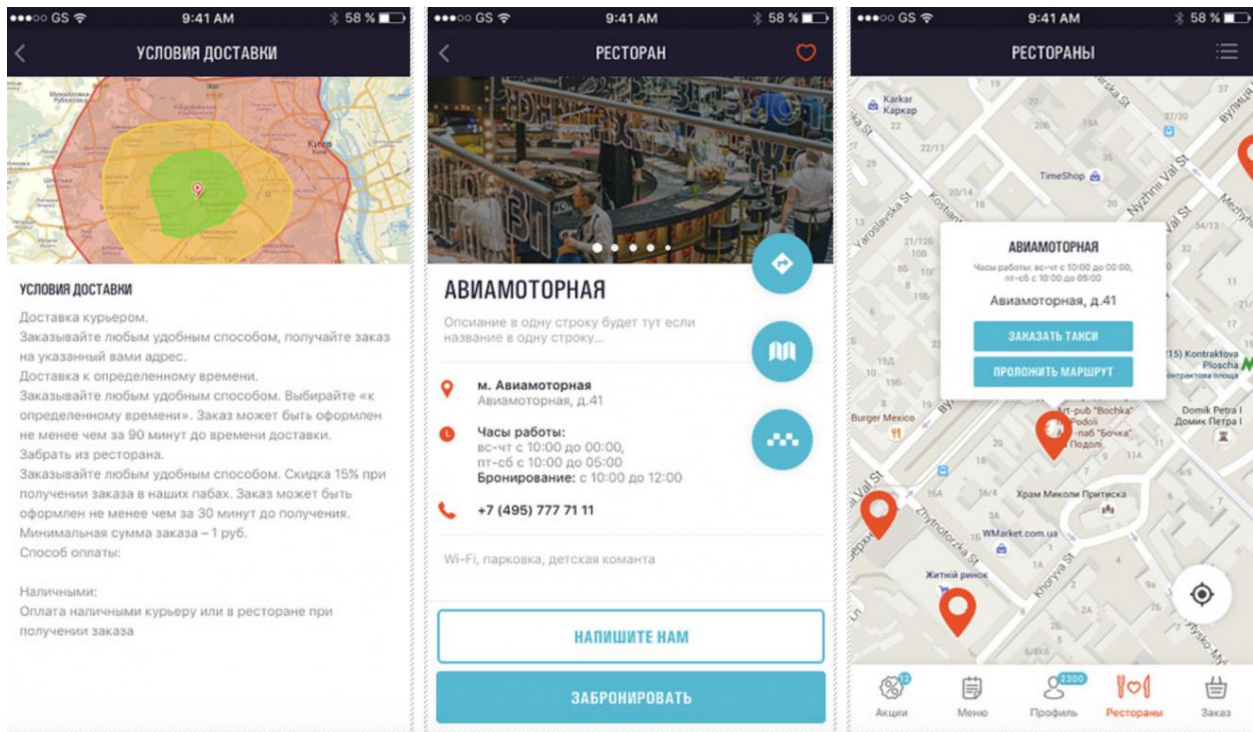

Menu of dishes of the mobile application

Selected dishes are selected manually or are put down by the system automatically with frequent ordering. Favorite dishes are always at the top of the list. Navigation through menu dishes in the form of a list or cards. Dishes that have additional ingredients are marked with an icon. Search by names and descriptions of dishes and ingredients.

## Information about establishments

Placement of text and graphic information about the terms of delivery and payment. Placement of information about restaurants with photos and addresses, choice of favorite places. View useful information about the restaurant, route or call a taxi to the restaurant via smartphone

Booking through the app

When booking, a notification is automatically sent to the restaurant administrator by email and SMS.

The user can write and send a review or complaint to the institution
